GARGI MEHTA

gm3300@srmist.edu.in | 6367974776 | 2027
B.Tech, Computer Science and Engineering - Artificial Intelligence and Machine Learning
Address : A-216 Budhvihar

Summary

Computer Science undergraduate with strong foundations in Python, SQL, and Machine Learning. Currently strengthening my knowledge in data structures, networks, and applied ML while actively seeking internship opportunities to gain hands-on industry experience.

Experience

Google Cloud (via AICTE–EduSkills, National Internship Portal) | Certificate of Completion — Apr 2025 - Jun 2025

Generative AI Virtual Intern · Intern · Virtual Internship — Remote

Completed a 10-week Generative AI virtual internship curriculum delivered by Google Cloud under AICTE's EduSkills program (National Internship Portal), earning an Outstanding (O) grade.

Happieloop | certificate of completion — Jul 2026 - Aug 2026

Machine Learning Intern · Machine Learning Intern · Internship — remote

Completed a Machine Learning Internship at Happieloop , Gained practical exposure to machine learning concepts and applications.

Projects

An AI-Based Legal Document Risk Analysis System

· Python ,Natural Language Processing (NLP) , Machine Learning, React — Artificial Intelligence , Legal Tech , Web Development

Developed an AI-driven web application to analyze legal documents and automatically identify potential risks, including unfair clauses, loopholes, and compliance issues. Implemented NLP techniques to process and interpret legal text, enabling users to gain actionable insights and make informed legal decisions without requiring domain expertise.

NutriVision: An Image-Based Food Nutrition Estimation System

· Python, Pandas , NumPy, Flask , OpenCV , TensorFlow / PyTorch , React — Machine Learning , Computer Vision , Web Development

NutriVision is a research-oriented web application that estimates food category, calorie content, nutritional values, oil content, and overall health classification from a single food platter image. The system integrates deep learning-based image recognition with nutritional data mapping to provide real-time analysis and portion control recommendations. A Flask-based backend processes image inputs using computer vision techniques, while a React frontend delivers an interactive user interface. The project aims to assist users in making healthier dietary decisions through automated food analysis.

Skills

Programming Languages: Python, C++, SQL
Areas of Interest: Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Generative AI
Languages and Frameworks: OpenCV, Scikit-learn, Pandas, NumPy, Matplotlib, Flask, FlaskAPI
Design and Simulation Tools: MATLAB
Technical Skills: DSA, DBMS, Operating Systems, Computer Networks, Formal Languages & Automata
Tools and Technologies: Git, Jupyter Notebook, VS Code, Google Cloud, MongoDB, Power BI

Education

SRM IST-Kattankulathur
B.Tech · Computer Science and Engineering · Chennai, Tamil Nadu — 8.2 CGPA

SVP Shikshan Sansthan Palsana
12th · CBSE · Rajasthan

Alwar Public School
10th · CBSE · Rajasthan

Certifications

SAP Certified – Data Analyst – SAP Analytics Cloud | Credly Badge — Mar 2026
SAP

Machine Learning Training | Verify Certificate — Jun 2025
Internshala Trainings · g8m94y5xbzy

Python Essentials | Credly Badge — Jun 2025
Cisco Networking Academy & OpenEDG Python Institute

Leadership & Extracurricular

Dance Convenor, Directorate of Student Affairs — Jul 2026 - May 2027

Serving as Dance Convenor under the Directorate of Student Affairs (2026–27), leading and coordinating dance-related student activities and events at SRM Institute of Science and Technology.

Volunteering

Mahatma Gandhi Government School, Dadar (Malakhera, Alwar, Rajasthan) | Link — Jun 2025 - Jul 2025

Volunteer Teacher · Digital Literacy & Community Development

Conducted digital literacy sessions for rural students, teaching computer basics, internet usage, cyber safety, and introductory AI through interactive, bilingual workshops. Helped bridge the digital awareness gap and promote responsible technology use
